SUBJECT INDEX*

A

Abdomen
Higher prevalence of abdominal aortic aneurysms in patients with carotid stenosis but without diabetes (Kang et al). 1999;126:687-92

Abdominal injuries
Zone I retroperitoneal hematoma identified by computed tomography scan as an indicator of significant abdominal injury (Falcone et al). 1999;126:608-15

Ablation; *see* Cryosurgery; Lasers

Adenosine
Pharmacologic stimulation of adenosine A_2 receptor supplants ischemic preconditioning in providing ischemic tolerance in rat livers (Nakayama et al). 1999;126:945-54

Adhesions
Prevention of adhesion formation in a rat model of ventral hernia repair—a randomized study (Amid). 1999;126:990 (Letter)

Adrenal gland neoplasms
Teratoma in the region of adrenal gland: a unique entity masquerading as lipomatous adrenal tumor (Lam and Lo). 1999;126:90-4

Adrenalectomy
Laparoscopic versus open adrenalectomy in Cushing's syndrome and disease (Acosta et al). 1999;126:1111-6

Alcoholism
Surgical decompression of ductal obstruction in patients with chronic pancreatitis (Lucas et al). 1999;126:790-7

Allografts; *see* Transplantation, homologous

American Association of Endocrine Surgeons. 1999;126:993-7–1200-4

Anesthesia
Bilateral neck exploration for parathyroidectomy under local anesthesia: a viable technique for patients with coexisting thyroid disease with or without sestamibi scanning (LoGerfo et al). 1999;126:1011-5
Outpatient minimally invasive parathyroidectomy: a combination of sestamibi-SPECT localization, cervical block anesthesia, and intraoperative parathyroid hormone assay (Chen et al). 1999;126:1016-22
Unilateral neck exploration under local anesthesia: the approach of choice for asymptomatic primary hyperparathyroidism (Inabnet et al). 1999;126:998-1003

Angiogenesis factor
Importance of timing and length of administration of angiogenesis inhibitor TNP-470 in the treatment of K12/TRb colorectal hepatic metastases in BD-IX rats (Watson et al). 1999;126:358-63

Anoikis
Anoikis, extracellular matrix, and apoptosis factors in isolated cell transplantation (Thomas et al). 1999;126:299-304

Antibiotics
The advent of antibiotics: episodes from the early days of the "miracle drugs" (Moore). 1999;126:83-4

Anus diseases
Identification of anti-endothelial cell antibodies in patients with chronic anal fissure (Maria et al). 1999;126:535-40

Aortic aneurysm, abdominal
Higher prevalence of abdominal aortic aneurysms in patients with carotid stenosis but without diabetes (Kang et al). 1999;126:687-92

Apoptosis
Anoikis, extracellular matrix, and apoptosis factors in isolated cell transplantation (Thomas et al). 1999;126:299-304
Apoptosis: cell death by proteolytic scalpel (Behrns et al). 1999;126:463-8
Dopamine induces neutrophil apoptosis through a dopamine D-1 receptor–independent mechanism (Sookhai et al). 1999;126:314-22
Inhibition of gastric cancer by camptothecin involves apoptosis and multiple cellular pathways (Litvak et al). 1999;126:223-30
Inhibition of neutrophil apoptosis after elective surgery (Fanning et al). 1999;126:527-34
Inhibition of the transcription factor nuclear factor-κB by adenoviral-mediated expression of IκBαM results in tumor cell death (Feig et al). 1999;126:399-405
Mitogen-activated protein kinases signal inhibition of apoptosis in lipopolysaccharide-stimulated neutrophils (Nolan et al). 1999;126:406-12
Neutrophils are primed for cytotoxicity and resist apoptosis in injured patients at risk for multiple organ failure (Biffl et al). 1999;126:198-202
P53 gene transfer to the injured rat carotid artery promotes apoptosis (Scheinman et al). 1999;126:863-8
Structural and functional changes resulting from islet isolation lead to islet cell death (Rosenberg et al). 1999;126:393-8
Surface cooling inhibits tumor necrosis factor-α–induced microvascular perfusion failure, leukocyte adhesion, and apoptosis in the striated muscle (Westermann et al). 1999;126:881-9
Ubiquitin-proteasome inhibition enhances apoptosis of human pancreatic cancer cells (McDade et al). 1999;126:371-7

Appetite regulation
Nicotine's effect on hypothalamic neurotransmitters and appetite regulation (Miyata et al). 1999;126:255-63

Arterial occlusive diseases
Differential expression of prostaglandin E_2 and interleukin-6 in occlusive and aneurysmal aortic disease (Reilly et al). 1999;126:624-8

Audiovisual aids
Acquisition of surgical skills: a randomized trial of didactic, videotape, and computer-based training (Summers et al). 1999;126:330-6

Axillary node; *see* Lymph node excision

B

Bahnson, Henry
Henry Bahnson at Pittsburgh (Carey). 1999;126:584

Balloon dilatation
Successful treatment of bleeding duodenal varices by balloon-occluded retrograde transvenous obliteration: a transjugular venous approach (Ohta et al). 1999;126:581-3 (Brief clin. rep)

Bile duct diseases
Pancreatic disorders associated with anomalous pancreaticobiliary junction (Sugiyama et al). 1999;126:492-7
"Spontaneous" perforation of the common bile duct (Kumar). 1999;126:99-100 (Letter reply)
"Spontaneous" perforation of the common bile duct (Ng). 1999;126:99 (Letter)
"Spontaneous" perforation of the common bile duct (Paladugu and Schein). 1999;126:99 (Letter)

Bile duct neoplasms
Expression of matrix metalloproteinase-9 in surgically resected intrahepatic cholangiocarcinoma (Shirabe et al). 1999;126:842-6

Macroscopic intrabiliary growth of liver metastases from colorectal cancer (Okano et al). 1999;126:829-34
Risk of bile duct carcinogenesis after excision of extrahepatic bile ducts in pancreaticobiliary maljunction (Kobayashi et al). 1999;126:939-44

Bile ducts
Gastroduodenal boari flap for bile duct replacement (Sharma et al). 1999;126:88-9 (Brief clin. rep.)

Biliary tract diseases
High coincidence of Mirizzi syndrome and gallbladder carcinoma (Nishimura et al). 1999;126:587 (Letter)
High coincidence of Mirizzi syndrome and gallbladder carcinoma (Redaelli). 1999;126:587-8 (Letter reply)

Biliary tract surgical procedures
Clinical pathway implementation improves outcomes for complex biliary surgery (Pitt et al). 1999;126:751-8

Biopsy, needle
Human telomerase reverse transcriptase (hTERT) gene expression in FNA samples from thyroid neoplasms (Zeiger et al). 1999;126:1195-9
Learning sentinel node biopsy: results of a prospective randomized trial of two techniques (Morrow et al). 1999;126: 714-22
Management of diagnostic dilemmas of the pancreas by ultrasonographically guided laparoscopic biopsy (Strasberg et al). 1999;126:736-43
Recommendations for management of cystic thyroid disease (McHenry et al). 1999;126:1167-72
Ultrasound-guided needle biopsy of the breast (Staren and O'Neill). 1999;126:629-35
The value of thyroid peroxidase immunohistochemistry for preoperative fine-needle aspiration diagnosis of the follicular variant of papillary thyroid cancer (DeMicco et al). 1999;126:1200-4

Blood loss, surgical
A pilot study evaluating the efficacy of a fully acetylated poly-N-acetyl glucosamine membrane formulation as a topical hemostatic agent (Cole et al). 1999;126:510-7

Blunt injury; *see* Wounds, nonpenetrating

Bone marrow
Impact of experimental peritonitis on bone marrow cell function (Barthlen et al). 1999;126:41-7

Breast neoplasms
An analysis of male and female breast cancer treatment and survival among demographically identical pairs of patients (Scott-Conner et al). 1999;126:775-81
A cost-effectiveness analysis of axillary node dissection in postmenopausal woman with estrogen receptor–positive breast cancer and clinically negative axillary nodes (Copeland). 1999;126:987-8 (Editorial)

Brief clinical reports. 1999;126:88-9; 581-3; 980-6

Bronchial neoplasms
The treatment of malignant endobronchial obstruction with laser ablation (Taber et al). 1999;126:730-5

Burns
Deleted form of hepatocyte growth factor ameliorates the mortality rate of severe thermal injury in rats (Arisawa et al). 1999;126:925-32

Burns, inhalation
Low-dose inhaled nitric oxide in acutely burned children with profound respiratory failure (Sheridan et al). 1999;126: 856-62

C

Cachexia
The expression of genes in the ubiquitin-proteasome proteolytic pathway is increased in skeletal muscle from patients with cancer (Williams et al). 1999;126:744-50

Calcinosis
Tumoral calcinosis regression after subtotal parathyroidectomy: a case presentation and review of the literature (Thakur et al). 1999;126:95-8

Calcium
Increased myocardial calcium cycling and reduced myofilament calcium sensitivity in early endotoxemia (Takeuchi et al). 1999;126:231-8

Camptothecin
Inhibition of gastric cancer by camptothecin involves apoptosis and multiple cellular pathways (Litvak et al). 1999; 126:223-30

Carcinoid tumor
Foregut carcinoids: a clinical and biochemical analysis (Kirshbom et al). 1999;126:1105-10

Carcinoma, medullary
Is medullary thyroid cancer predictable? A prospective study of 86 patients with abnormal pentagastrin tests (Scheuba et al). 1999;126:1089-96

Carcinoma, papillary
Coexistent Hashimoto's thyroiditis with papillary thyroid carcinoma: impact on presentation, management, and outcome (Singh et al). 1999;126:1070-7
The value of thyroid peroxidase immunohistochemistry for preoperative fine-needle aspiration diagnosis of the follicular variant of papillary thyroid cancer (DeMicco et al). 1999;126:1200-4

Cardioplegia; *see* Heart arrest, induced

Carotid artery
Carotid endarterectomy without angiography: can clinical evaluation and duplex ultrasonographic scanning alone replace traditional arteriography for carotid surgery workup? A prospective study (Ballotta et al). 1999;126:20-7
P53 gene transfer to the injured rat carotid artery promotes apoptosis (Scheinman et al). 1999;126:863-8

Carotid stenosis
Higher prevalence of abdominal aortic aneurysms in patients with carotid stenosis but without diabetes (Kang et al). 1999;126:687-92

Caspases
Apoptosis: cell death by proteolytic scalpel (Behrns et al). 1999;126:463-8

Cell transplantation
Anoikis, extracellular matrix, and apoptosis factors in isolated cell transplantation (Thomas et al). 1999;126:299-304
Clinical autologous in vitro endothelialization of infrainguinal ePTFE grafts in 100 patients: a 9-year experience (Deutsch et al). 1999;126:847-55

Central Surgical Association. 1999;126:589-814

Chemokines
Integrated stimulation by CXC chemokines enhances PMN $[Ca^{2+}]_i$ signaling in trauma and adult respiratory distress syndrome (Hauser et al). 1999;126:208-15

Chemotaxis
Thrombospondin-1 regulation of smooth muscle cell chemotaxis is extracellular signal-regulated protein kinases 1/2 dependent (Gahtan et al). 1999;126:203-7

Chemotherapy, adjuvant
Inhibition of gastric cancer by camptothecin involves apoptosis and multiple cellular pathways (Litvak et al). 1999; 126:223-30
Synergistic antitumor effects of HER2/ neu antisense oligodeoxynucleotides and conventional chemotherapeutic agents (Roh et al). 1999;126:413-21

Child; *see also* Infant

Direct genetic testing for *Smad4* mutations in patients at risk for juvenile polyposis (Howe et al). 1999;126:162-70
Low-dose inhaled nitric oxide in acutely burned children with profound respiratory failure (Sheridan et al). 1999;126: 856-62
Optimizing the management of blunt splenic injury in adults and children (Konstantakos et al). 1999;126:805-14

Cholangiocarcinoma
Expression of matrix metalloproteinase-9 in surgically resected intrahepatic cholangiocarcinoma (Shirabe et al). 1999;126: 842-6

Cholecystectomy, laparoscopic
Gangrenous cholecystitis: analysis of risk factors and experience with laparoscopic cholecystectomy (Merriam et al). 1999; 126:680-6

Cholecystitis
Gangrenous cholecystitis: analysis of risk factors and experience with laparoscopic cholecystectomy (Merriam et al). 1999;126:680-6

Choledochal cysts
Risk of bile duct carcinogenesis after excision of extrahepatic bile ducts in pancreaticobiliary maljunction (Kobayashi et al). 1999;126:939-44

Chromosome mapping
Mapping of a gene predisposing to familial tumors with cell oxyphilia to chromosome 19 and exclusion of JUN B as a candidate gene (Kraimps et al). 1999;126:1188-94

Claudication; *see* Intermittent claudication

Colon
Gastrin-mediated effects of omeprazole on rat colon mucosa (Klingensmith et al). 1999;126:272-8

Colonic diseases
Short-chain fatty acids and thyroid hormone interact in regulating enterocyte gene transcription (Meng et al). 1999;126: 293-8

Colonic neoplasms
Reduced expression of the metastasis suppressor gene KAI1 in advanced colon cancer and its metastases (Maurer et al). 1999;126:869-80

Colorectal neoplasms
Cryotherapy extends the indications for treatment of colorectal liver metastases (Wallace et al). 1999;126:766-74
Cyclooxygenase-2 alters transforming growth factor-β1 response during intestinal tumorigenesis (O'Mahony et al). 1999;126:364-70
Importance of timing and length of administration of angiogenesis inhibitor TNP-470 in the treatment of K12/TRb colorectal hepatic metastases in BD-IX rats (Watson et al). 1999;126:358-63
Macroscopic intrabiliary growth of liver metastases from colorectal cancer (Okano et al). 1999;126:829-34

Comparison studies; *see* Matched-pair analysis

Complement membrane attack complex
Intestinal ischemia-reperfusion injury is mediated by the membrane attack complex (Austen et al). 1999;126:343-8

Computer
Acquisition of surgical skills: a randomized trial of didactic, videotape, and computer-based training (Summers et al). 1999;126:330-6

Coronary artery bypass
Gender and functional outcome after coronary artery bypass (Stewart et al). 1999;126:184-90

Coronary vessels
Different effects of protamine on canine coronary microvessel and conductance arteries: evidence of hyperpolarizing factor release (Cable et al). 1999;126:835-41

Costs and cost analysis
Clinical pathway implementation improves outcomes for complex biliary surgery (Pitt et al). 1999;126:751-8
A cost-effectiveness analysis of axillary node dissection in postmenopausal woman with estrogen receptor–positive breast cancer and clinically negative axillary nodes (Copeland). 1999;126:987-8 (Editorial)
A cost-effectiveness analysis of axillary node dissection in postmenopausal women with estrogen receptor–positive breast cancer and clinically negative axillary nodes (Orr et al). 1999;126:568-76
Cost-effectiveness analysis—a health policy perspective (Maini). 1999;126:989 (Editorial)
Is sestamibi-guided parathyroidectomy really cost-effective? (Greene et al). 1999;126:1036-41

Cryosurgery
Acute lung injury after hepatic cryoablation: correlation with NF-κB activation and cytokine production (Blackwell et al). 1999;126:518-26

Cryotherapy
Cryotherapy extends the indications for treatment of colorectal liver metastases (Wallace et al). 1999;126:766-74
Surface cooling inhibits tumor necrosis factor-α-induced microvascular perfusion failure, leukocyte adhesion, and apoptosis in the striated muscle (Westermann et al). 1999;126:881-9

Cushing syndrome
Laparoscopic versus open adrenalectomy in Cushing's syndrome and disease (Acosta et al). 1999;126:1111-6

Cyclooxygenase; *see* Prostaglandin-endoperoxide synthase

Cytokines
Acute lung injury after hepatic cryoablation: correlation with NF-κB activation and cytokine production (Blackwell et al). 1999;126:518-26
Proinflammatory cytokines (tumor necrosis factor and interleukin 1) stimulate release of high mobility group protein-1 by pituicytes (Wang et al). 1999;126:389-92
Trauma-hemorrhage delays wound healing potentially by increasing pro-inflammatory cytokines at the wound site (Angele et al). 1999;126:279-85

D

Dai-Kenchu-Tou
The herbal medicine, Dai-Kenchu-Tou, stimulates upper gut motility through cholinergic and 5-hydroxytryptamine 3 receptors in conscious dogs (Shibata et al). 1999;126:918-24

Decompression, surgical
Surgical decompression of ductal obstruction in patients with chronic pancreatitis (Lucas et al). 1999;126:790-7

Denervation
The effect of denervation on leukocyte function in soft tissue infection (Hui et al). 1999;126:933-8

Desmoid tumors; *see* Fibromatosis, aggressive

Diabetes mellitus
Diabetes mellitus with hyperparathyroidism: another indication for parathyroidectomy? (Richards and Thompson). 1999; 126:1160-6
Higher prevalence of abdominal aortic aneurysms in patients with carotid stenosis but without diabetes (Kang et al). 1999;126:687-92

Diagnosis, differential
Follicular or Hürthle cell neoplasm of the thyroid: can clinical factors be used to predict carcinoma and determine extent of thyroidectomy? (McHenry et al). 1999;126:798-804
Invasive differentiated thyroid carcinoma: tracheal resection and reconstruction procedures in the hands of the endocrine surgeon (Musholt et al). 1999;126:1078-88
Teratoma in the region of adrenal gland: a unique entity masquerading as lipomatous adrenal tumor (Lam and Lo). 1999;126:90-4
Value of stimulated serum thyroglobulin levels for detecting persistent or recurrent differentiated thyroid cancer in high- and low-risk patients (Duren et al). 1999;126:13-9

Diagnostic imaging; *see also specific types of imaging*
Diagnostic and therapeutic video-assisted thoracic surgery resection of pulmonary metastases (Lin et al). 1999; 126: 636-42

Evaluation of preoperative and intraoperative arterial stimulation and venous sampling for diagnosis and surgical resection of insulinoma (Aoki et al). 1999;126:968-73
The evolution of parathyroidectomy failures (Boggs et al). 1999;126:998-1003
Video-assisted versus conventional parathyroidectomy in primary hyperparathyroidism: a prospective randomized study (Miccoli et al). 1999;126:1117-22

Diagnostic techniques, surgical
Improving diagnostic staging laparoscopy using intraperitoneal lavage of δ-aminolevulinic acid (ALA) for laparoscopic fluorescence diagnosis (Gahlen et al). 1999;126:469-73

Diethyl maleate
Delayed treatment with diethyl maleate prevents E-section expression in human endothelial cells (Wei et al). 1999;126:286-92

Dilatation, pathologic
Different effects of protamine on canine coronary microvessel and conductance arteries: evidence of hyperpolarizing factor release (Cable et al). 1999;126:835-41
Endothelial vasodilatory dysfunction in primary hyperparathyroidism is reversed after parathyroidectomy (Nilsson et al). 1999;126:1049-55

DNA
Human telomerase reverse transcriptase (hTERT) gene expression in FNA samples from thyroid neoplasms (Zeiger et al). 1999;126:1195-9
Mitochondrial DNA damage and altered membrane potential ($\Delta\Psi$) in pancreatic acinar cells induced by reactive oxygen species (Ehlers et al). 1999;126:148-55

Dogs
Different effects of protamine on canine coronary microvessel and conductance arteries: evidence of hyperpolarizing factor release (Cable et al). 1999;126:835-41

Gene mapping; *see* Chromosome mapping

Gene transfer
Adenovirus-mediated gene transfer to the peritoneum and hepatic parenchyma of fetal mice in utero (Lipshutz et al). 1999;126:171-7
Inhibition of cytokine-induced nitric oxide synthase expression by gene transfer of adenoviral IκBα (Taylor et al). 1999;126:142-7
Optimization of ex vivo inducible nitric oxide synthase gene transfer to vein grafts (Kibbe et al). 1999;126:323-9
P53 gene transfer to the injured rat carotid artery promotes apoptosis (Scheinman et al). 1999;126:863-8

Genes, suppressor
P53 gene transfer to the injured rat carotid artery promotes apoptosis (Scheinman et al). 1999;126:863-8
Reduced expression of the metastasis suppressor gene KAI1 in advanced colon cancer and its metastases (Maurer et al). 1999;126:869-80

Genetic screening
Direct genetic testing for *Smad4* mutations in patients at risk for juvenile polyposis (Howe et al). 1999;126:162-70

Glucans
Inhibiting early activation of tissue nuclear factor-κB and nuclear factor interleukin 6 with (1→3)-β-D-glucan increases long-term survival in polymicrobial sepsis (Williams et al). 1999;126:54-65

Glucosamine
A pilot study evaluating the efficacy of a fully acetylated poly-N-acetyl glucosamine membrane formulation as a topical hemostatic agent (Cole et al). 1999;126:510-7

Graft occlusion, vascular
Clinical autologous in vitro endothelialization of infrainguinal ePTFE grafts in 100 patients: a 9-year experience (Deutsch et al). 1999;126:847-55
Femoral-infrapopliteal bypass with prosthetic grafts (Eagleton et al). 1999;126:759-65
Prospective controlled study of polytetrafluoroethylene versus saphenous vein in claudicant patients with bilateral above knee femoropopliteal bypasses (AbuRahma et al). 1999; 126:594-602

Graft survival
Antisense oligonucleotides to *c-fos* and *c-jun* inhibit intimal thickening in a rat vein graft model (Suggs et al). 1999; 126:443-9
External support modulates G protein expression and receptor coupling in experimental vein grafts (Huynh et al). 1999; 126:127-34
Long-term survival of an extremity composite tissue allograft with FK506–mycophenolate mofetil therapy (Jones et al). 1999;126:384-8
Macrophage depletion alters vein graft intimal hyperplasia (Hoch et al). 1999;126:428-37

Neoplasm metastasis
Critical review of the sentinel node hypothesis (Morton and Ollila). 1999;126:815-9
Cryotherapy extends the indications for treatment of colorectal liver metastases (Wallace et al). 1999;126:766-74
Depressed cytotoxic activity of hepatic nonparenchymal cells in rats with obstructive jaundice (Hirazawa et al). 1999;126:900-7
Diagnostic and therapeutic video-assisted thoracic surgery resection of pulmonary metastases (Lin et al). 1999;126:636-42
Effects of laparoscopy on intraperitoneal tumor growth and distant metastases in an animal model (Dorrance et al). 1999;126:35-40
Impact of primary surgery on outcome in 300 patients with pathologic tumor-node-metastasis stage III papillary thyroid carcinoma treated at one institution during 1940 through 1989 (Hay). 1999;126:1173-82
Importance of timing and length of administration of angiogenesis inhibitor TNP-470 in the treatment of K12/TRb colorectal hepatic metastases in BD-IX rats (Watson et al). 1999;126:358-63
Improving diagnostic staging laparoscopy using intraperitoneal lavage of δ-aminolevulinic acid (ALA) for laparoscopic fluorescence diagnosis (Gahlen et al). 1999;126:469-73
Isolated hepatic perfusion for lapine liver metastases: impact of hyperthermia on permeability of tumor neovasculature (Gnant et al). 1999;126:890-9
Macroscopic intrabiliary growth of liver metastases from colorectal cancer (Okano et al). 1999;126:829-34
Reduced expression of the metastasis suppressor gene KAI1 in advanced colon cancer and its metastases (Maurer et al). 1999;126:869-80
Vascular endothelial growth factor-C gene expression in papillary and follicular thyroid carcinomas (Fellmer et al). 1999;126:1056-62

Neoplasm recurrence, local
Revenge of the conjoined twins: a giant presacral recurrence in a patient born with an attached, well-differentiated teratoma (Wang and Edelstein). 1999;126:980-3 (Brief clin. rep)
Value of stimulated serum thyroglobulin levels for detecting persistent or recurrent differentiated thyroid cancer in high- and low-risk patients (Duren et al). 1999;126:13-9

Nephrectomy
Initial experience with laparoscopic live donor nephrectomy (Odland et al). 1999;126:603-7

Neutrophils
Dopamine induces neutrophil apoptosis through a dopamine D-1 receptor-independent mechanism (Sookhai et al). 1999;126:314-22
Granulocyte colony-stimulating factor and neutrophil-related changes in local host defense during recovery from shock and intra-abdominal sepsis (Davis et al). 1999;126:305-13
Inhibition of neutrophil apoptosis after elective surgery (Fanning et al). 1999;126:527-34
Mitogen-activated protein kinases signal inhibition of apoptosis in lipopolysaccharide-stimulated neutrophils (Nolan et al). 1999;126:406-12
Neutrophils are primed for cytotoxicity and resist apoptosis in injured patients at risk for multiple organ failure (Biffl et al). 1999;126:198-202
Priming of the neutrophil respiratory burst is species-dependent and involves MAP kinase activation (Yaffe et al). 1999;126:248-54

NF-kappa B
Acute lung injury after hepatic cryoablation: correlation with NF-κB activation and cytokine production (Blackwell et al). 1999;126:518-26
Inhibiting early activation of tissue nuclear factor-κB and nuclear factor interleukin 6 with (1→3)-β-D-glucan increases long-term survival in polymicrobial sepsis (Williams et al). 1999;126:54-65
Inhibition of cytokine-induced nitric oxide synthase expression by gene transfer of adenoviral IκBα (Taylor et al). 1999;126:142-7
Inhibition of the transcription factor nuclear factor-κB by adenoviral-mediated expression of IκBαM results in tumor cell

death (Feig et al). 1999;126:399-405

Nicotine
Nicotine's effect on hypothalamic neurotransmitters and appetite regulation (Miyata et al). 1999;126:255-63
